## **General and local competition rules**

The Championships rules shall comply with the rules and regulations as laid down in the FAI Sporting Code (SC) General Section, Section 3 Gliding Annex A and with the procedures defined in the Local Procedures (LP).

LP for gliding competitions hold at Starmoen, Revision 2010N-A, is published and can be downloaded here:

<http://booking.seilfly.no/files/LP%202010%20rev%20NOR-A.pdf>

## **Safety issues**

We remind you that FLARM-installation is mandatory in every competing glider of the championship

## **Airspace and turning points**

We have had some problems regarding available airspace in cooperation together with military activity at Rena (30km to the north of Elverum). This is also the reason of this late published bulletin.

The database of turnpoints- and airspace files are ready and are updated April 2010 here: <http://www.emap.no/waypoints/gliding>

There are changes in the airspace files since 2009, but not in the turnpoints. New military airspaces of parachuting named Rena HAHO (High Altitude High Opening) are established as new in 2010.
